

Technical Data

Pilot XD

Light headset for Pilots in the cockpit

- lightweight binaural headset for Pilots in planes with low noise
- resistant leatherette ear cushions provide slight noise insulation
- high wearing comfort
- optional Spacer-Distance-Clips
- operation with all common aircraft radios because of its variety of connectors

Technical data

Additional data

Power input: approx. 10 mA

Speaker

Pattern: dynamic

Impedance: 150 Ohm at 1 mW / 1 kHz

Sound pressure level: max.115 dB

Frequency range: 150 Hz – 12 kHz

Microphone

Pattern: electret (amplified)

Directional: noise cancelling (NC)

Impedance: 150 Ohm

Sensitivity: -10 dB V / Pa, 1 kHz

Frequency range: 150 Hz – 8 kHz

Additional Data

Temperature range: -20°C to +70°C

Weight: 135 g (incl. coiled cord and plug)

Operation voltage: 8 – 14 V
